

# Grill Safe

Each year, an average of 6,500 grill fires result in nearly \$27 million in property loss, many civilian injuries, and even civilian deaths.

The NEW award-winning PowerChef Electric Grill by Dimplex, will ensure you get mouth-watering results without the worries and dangers of a gas grill. No hot spots, no empty tanks, no broken igniters, and no dangerous flare-ups.

Summertime should be a time for fun and making happy memories. RDI and Dimplex are here to ensure everyone has a happy, safe summer.

## evensear Active Heat Technology

Active dual element sears while it cooks by heating food directly.

The upper searing element (stainless steel cooking surface) reaches 650 degrees to lock in flavor and juices.

The lower cooking element simultaneously provides precise, even heat.

### Innovative Flip-up Element for Rotisserie cooking

- Flip up the dual element to convert it to a rotisserie element—this feature eliminates flare-ups, meaning perfectly cooked, juicy roasts every time.

- \*Rotisserie kit optional

## Power Chef™ Electric Grill

### Features and Benefits

- Powerful and compact—ideal for almost any location including backyard decks and patios.
- Perfect for apartment and condo balconies where gas grills are impractical or are simply not allowed.
- All 216 square inches of the grilling surface deliver powerful, even temperatures with no hot spots.
- Restaurant-quality stainless steel construction for long-life and durability.
- Plugs into a standard 120V power outlet.
- Stainless steel double-wall oven construction.
- Large concealed storage cabinet.
- Removable drip cup for easy clean-up.
- Upper warming rack perfect for vegetables, buns, etc.
- 6 convenient tool holders keep cooking area neat and tidy.
- Durable wheels for easy portability.

## Exclusive Control Technology

With a few easy steps the electronic controls produce perfect cooking results every time without any guess work. Select manual control to cook the old-fashioned way or create custom program to simplify favorite meals.

### Program mode:

Program the type of food, thickness and how well to cook the food. The control chimes when it's time to flip and time to serve, and in case of no response, will automatically reduce to warm.

### Manual Mode:

Select heat output manually for precise control.

### Favorite Mode:

Enter a custom program for a favorite food.

### Keypad Lock:

Convenient keypad lock prevents children from adjusting the controls.
