

June 30, 2008

Dear Andrew and John:

As far as Heating and Cooling guys go, you are above the rest! Your philosophy, work ethic and dedication for providing the best service possible are extraordinary.

Thank you so much for speaking at our NACHI (National Association of Certified Home Inspectors) meeting, June 27th, and sharing your knowledge. Your passion and commitment will be remembered by everyone who attended and no doubt bring you more well-deserved business.

Please consider speaking at one of our meetings again in the Fall regarding geothermal power. We will spend the time and cost to flood the Realtor's offices with flyers as well as advertising through E-mail and the newspaper.

We foresee this as being the best attended meeting ever and will require RSVP's. If you are interested, a Power Point presentation can also be shown in the same meeting place.

Again, thank you for your wonderful support and excellent service. This area is fortunate to have RDI Heating and Cooling.

Let us know if we can do anything for you, 208-660-8877. We wish you abundant blessings.

Your Inspector Friends,

Russ & Jeanne
